VICTORY GARDENS

for 1944

These gardens produced much more than anticipated in 1943. For 1944 the Victory Garden Campaign urges everyone to plant all possible vegetables and fruits. **Food is ammunition.** Without it our boys are helpless—our production lines stop. The government of the United States urges you to plant your share. If all of us provide as much as we can for our own use, there will be just that much more to send across to our fighting men. Flowers are also a healthful diversion from the strain of world troubles.

It's Easy to Order~

Buying at Maloney's by mail is convenient and economical.

You can do all your shopping for your City, Farm or Suburban Home, leisurely, any time you wish, from your easy chair in the comfort of your own home.

GROW Fruit and vegetables to help meet those ever-increasing taxes;

GROW Flowers for fun and relaxation. Keep busy . . . keep happy.

REMEMBER: What you grow is better than what you buy!
What you grow you don't have to buy!

EVERGREENS

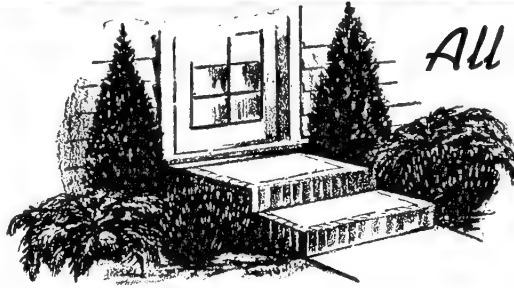

All Evergreens Moss Balled

All evergreens are taken up expertly to secure the tender roots, the soil removed, and then the roots dipped in Transplantone and balled and burlapped in wet moss. By this method we are now able to eliminate 50 to 60 pounds of soil, making low cost express shipments possible. This method also insures excellent growth and quicker root action. In planting remove burlap and use peat moss in hole around roots.

DOORSTEP PLANTING

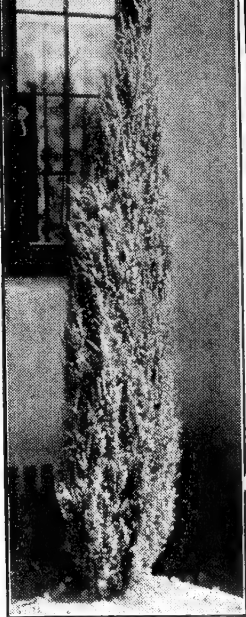

We will provide the following evergreens for this planting as listed.
